

Public-Private Partnerships for Urban Infrastructure

Organized by: **Communitas Coalition**

(ICLEI – Local Governments for Sustainability, NRG4SD – Network of Regional Governments for Sustainable Development, UN-Habitat, Tellus Institute)

Tuesday, October 18, 2016
14:00-15:00

Habitat III Exhibition Area
World Stage by Next City (B30)

Cities and sub-national governments are on the front lines for implementing the Sustainable Development Goals (SDGs), and the New Urban Agenda, but coming up with the resources to finance implementation – estimated at trillions of dollars per year globally – is a critical challenge facing all levels of government. This session will present a range of perspectives on public-private partnerships (PPPs) for urban infrastructure and discuss a set of Draft Principles for PPPs aimed at enhancing local and regional governments' understanding of and capacity for dealing with PPPs.

Agenda

Introductory Remarks

James Goldstein, Communitas Coalition

Local/Regional Experience with PPPs

Luana Temponi Godinho, Metropolitan Region Development Agency, Belo Horizonte, Brazil

NGO/Labor Perspective on PPPs

Sandra Vermuyten, Head of Campaigns, Public Services International

Draft Principles for PPPs for Urban Infrastructure

James Goldstein, Research Director, Communitas Coalition

Facilitated Discussion
